Notice

Trunk Road T4 in Sha Tin

Temporary arrangements to facilitate the closure of pedestrian and cycle subway (No. NS303)

at Lion Rock Tunnel Road

(From 14 February 2026 onwards)

To facilitate the construction of Trunk Road T4 and the footbridge system, the pedestrian and cycle subway (No. NS303) across the Lion Rock Tunnel Road will be closed from 14 February 2026 onwards. To minimize the inconvenience to the public, a temporary crossing will be installed at the concerned location to serve as part of an alternative route for pedestrians and cyclists (see attachment). Furthermore, modification works will be carried out at the existing pedestrian crossing near Che Kung Temple Station Exit B. The refuge island will be widened to enhance the pedestrian connectivity.

To adjust traffic signs and road markings, the project team will carry out night work from 11pm 13 February to 5am 14 February 2026 at the Lion Rock Tunnel Road. Appropriate signs will be displayed on-site and noise mitigation measures will be adopted to minimize disturbance to nearby residents.

Countdown signage will be provided two weeks prior to implementation to remind pedestrians of the forthcoming subway closure. Ambassadors will also be deployed on-site to brief pedestrians on the alternative route arrangement.

Thank you for your understanding. Should you have any questions, please do not hesitate to call our 24-hour Project Hotline 9391-1754.
